The Tech

VOL. XXIV. No. 84. BOSTON, MASS., WEDNESDAY, MAY 17, 1905 PRICE THREE CENTS.

SOPHOMORES WIN.

First Game of Championship Series Goes to 1907 by the Score of 4-2.

The Sophomores won the first game of the championship series with the Freshmen yesterday by a score of 4 to 2. During the sixth inning, because of the rain, time was called for ten minutes, with the score 4—0 in favor of the Sophs. After the game was resumed the Freshmen put two men across the home plate, but were unable to tie the score. In spite of the wet ball and slow field the game was fast, snappy and interesting. It was a pitchers' battle from the start. Pritchett, the Freshman pitcher, struck out the first five men. The game was called at the end of the eighth inning on account of darkness.

The next game of the series will be Thursday, at 3.30 P.M., at Tech Field.

INDUSTRIAL CHEMISTRY.

Professor Walker's Course in Industrial Chemistry was concluded by an excursion to the Merrimac Chemical Company, at South Wilmington, on Tuesday, May 16.

The manufacturing of Glauber's Salt from nitre cake was the object of particular interest, for previous to the excursion the class had experimented upon this process in the laboratory, and each member had drawn a plan of a plant which he considered would carry it out on a large scale.

FACULTY MAKES REPORT.

Action on Alliance Reported to Corporation Last Saturday, and to be Referred to Alumni Today.

The report of the Faculty on the educational advantages and disadvantages of the proposed plan for alliance with Harvard University, was made to the Corporation last Saturday.

The report has been referred to the Alumni by the Corporation, and it has been printed in pamphlet form by the Executive Committee of the Alumni Association. These pamphlets, which include the main resolution, seven appendices and a minority report, in all 77 pages, are to be sent to the Alumni today.

The vote of the Faculty by which the report was adopted on May 5, stood 56 to 7, and was as follows:

Yeas: Professors Adams, Allen, Bailey, Bardwell, Bartlett, Bates, Bigelow, Burton, Chandler, Clifford, Coolidge, Crosby, Currier, Derr, Despradelle, Dewey, Fuller, Gardner, Gill, Goodwin, Holman, Hovgard, Johnson, Lanza, R. R. Lawrence, W.H. Lawrence, Laws, Lodge, Merrill, Miller, Niles, Norton, Noyes, Osborne, Park, Peabody, Pearson, Pope, Porter, Prescott, Puffer, Richards, Robbins, Schwamb, Spofford, Sumner, Talbot, Thorp, Vogel, Warren, Wells, Wendell, Wheeler, Woodbridge, Woods.

Nays: The President, Professors Fay, Jagger, McKibben, Moore, Swain, Walker.

(Professors Sedgwick and Tyler, the two members of the Faculty not recorded in the above vote, are absent in Europe.)

In the expression of its opinion the Faculty has felt obliged to confine its attention to the plan as submitted, assuming that at least its main features are essential to the consummation of the agreement, and has not ventured to discuss the indefinite question of advantageous modifications.

The educational policy of the Institute, the advantages and disadvantages of the proposed plan, and the fact that the Institute is not a local, but a national institution, are discussed at length.

The report states that the success of the Institute has been and still is a success, namely of character and morale; and it is precisely these vital qualities which the Faculty believes would be destroyed by the changes called for under the terms of this agreement. For it is not merely proposed to remove the Institute to a new site, but to graft it upon another institution.

The report concludes by saying that by the alliance with Harvard much might be accomplished in harmonious effort, which should be highly beneficial to both the University and the Institute. This development, however, must be a growth. It cannot be forced, as the proposed ageeement would attempt to force it, for it is in the nature of continuous experiment, presenting problems for the solution of which no data exists.

TECH NIGHT AT THE "POPS."

Application blanks are now being distributed to the undergraduates for tickets to Tech night at the "Pops." These should be sent in immediately. Those who have not already secured any application blanks may obtain them from their Class Secretary. Floor tickets at table will be $1.00, and balcony tickets, 75 cents.

The whole of Symphony Hall has been reserved, the floor for past students and undergraduates, and the balconies for ladies and their escorts. Each class will be assigned a number of tables on the floor in ratio to the applications received.

Tickets in the balconies will be assigned strictly in order of receipt of requests with remittances.

There are less than 1,100 seats in the balconies, a number far inadequate to meet the demands made upon us last year.

Tickets will be reserved at 85 Newbury Street on and after June 3, but those who desire may send stamped envelopes for return of tickets. No seats will be on sale at the hall.

WORCESTER MEET.

The Tech Team ought to show up well at the N. E. I. A. A. Track and Field Games to be held at the Worcester Oval, Friday and Saturday. May 19 and 20, as we are confident of doing better than we did a year ago.

Trials in all the events except the mile and the two mile run, will be held Friday, May 19, at 3 P.M. Semi-Finals and Finals in all events will be held on the following day, Saturday, May 20, starting at 2.15 P.M., promptly.

The railroad fare from Boston will not exceed $1.25 round trip, if over 100 men go this way, while by the Boston and Worcester electrics, which go direct to the gates, the fare is 90 cents round trip. The train leaves at 12.08 P.M., Saturday.

CALENDAR.

WEDNESDAY MAY 17.

1.00 P.M. Round Table Meeting in 22 Rogers.

4.00 P.M. California Club Meeting in 22 Rogers

4.00 P.M. Mechanical Engineering Society Meeting in 11 Eng. B.

4.30 P.M. Mining Engineering Society Meeting in 2 Rogers.

THURSDAY, MAY 18.

3.30 P.M. Class Baseball. 1907 vs. 1908. Technology Field.

FRIDAY, MAY 19.

2.00 P.M. Golf. Tech vs. Williams at the Wollaston Links.

2.00 P.M. Trials for the Worcester Meet.

SATUDAY, MAY 20.

12.08 P.M. Tech Special leaves for Worcester.

2.00 P.M. N. E. I. A. A. Meet at Worcester.

FACULTY NOTICES.

Last exercise in third year Physical Laboratory will be on Saturday, May 20. All reports must be handed in for preliminary inspection not later than May 27, and will be returned May 29 in Lower Hall, W. The reports of all work done during the year are to be paged, indexed and bound in covers, and handed in for final inspection not later than Wednesday, May 31.

Last exercise in second year Physical Laboratory will be on Thursday, May 25. All reports must be in for preliminary inspection not later than Monday morning, May 29, and will be returned in Lower Hall, W., Monday afternoon. These and reports on all other work performed during the term are to be paged, indexed, bound in covers, and returned for final inspection not later than Wednesday, May 31.

NOTICES.

There will be a meeting of the Round Table men today at 1 P.M. in 22 Rogers.

There will be a meeting of all California men today, May 17, at 4 P.M. in 22 Rogers.

The Mechanical Engineering Society will hold a Thesis meeting in 11 Eng. B, at 4 P.M. today.

The Mining Engineering Society will hold a business meeting for the election of officers in Room 2, Rogers, at 4.30 P.M. today. Shingles may be obtained at this meeting, or from C. W. Johnston, '05, or A. T. Heywood, '06.

The Tech

Published every Monday, Wednesday and Friday during the college year (from September to June), by students of the Massachusetts Institute of Technology.

Entered as second-class matter October 6, 1904, at the post office at Boston, Mass., under the Act of Congress of March 3, 1879.

WILLIAM A. NICHOLS, PRINTER, 338 SUMMER ST., REAR

A great effort has been made by the Alumni to have this year's Pop Concert a repetition of last year's success, and undergraduates should do all in their power to aid them by turning out in good numbers. Not a man who can stay within reach of town till June 6 should miss it.

Undergraduates at Pops.

It has been said that some business men believe Tech men to be too narrowly educated, that they say his success is all at the start and grows less as the practical problems assume new and unaccustomed forms; that they prefer graduates of colleges with no special training as being more useful in the long run. Just how widespread such a judgment is, or how well founded, it is difficult to say; suffice it that the danger of narrowness is recognized. In considering this the first thought is concerning the essential difference between a college and a technical school; surely technical studies are good mental development; it must be outside the field of studies that we should look for the essential of any difference in training. One suggestion might be that the more intense community life of the college is broadening. And if so, is it not the duty of Tech men to attempt improvement along the lines where they are least strong? Radical changes are rarely advisable, but it does seem that greater interest in school activities would be a benefit to the participants. Interest in organizations is the result of work for them. We believe that it would be beneficial if all Tech men were in addition to their studies, putting forth personal effort in some way for the benefit of the school.

COOPER'S SPRING NEEDLE DERBY RIBBED **UNDERWEAR**

FOR MEN OF REFINED TASTE

Is an underwear that appeals to men who wear good things. It is made of a fabric of remarkable elasticity, manufactured on the famous Spring-Needle Machine made by Charles Cooper and patented in nine countries.

The garments made from this fabric are of the finest yarns and their hygienic value is unsurpassed. They always retain their original shape even after the hardest wear. From first to last they maintain that same elegant, silky feel and easy comfortable and natural fit. They are made in two-piece and union suits, and in various sizes, weights and colors.

Be sure to ask your retail dealer for the genuine Cooper Spring-Needle Underwear. If he doesn't keep it refuse to purchase until you have seen our booklet "T" and samples of the Spring-Needle fabric.

They are yours on request.

This trade mark is on every garment. Look for and insist upon it, or you will get one of the "other kinds" that is not "just as good."

UNDERWOOD'S Original

DEVILED HAM

When you strike off into the woods, see that in your pack basket or in the bow of your canoe you have a sufficient supply of Underwood's Original Deviled Ham. A small can and a couple of slices of bread, or, better, cold toasted bread (toast should be buttered after it has become cold), make a satisfying and delightful lunch. In camp it is a ways indispensable, either for emergencies or the regular table.

It may be bought at any good grocer's, but be sure you see on the can THE LITTLE RED DEVIL. There is only ONE Deviled Ham — *Underwood's Red Devil Brand.* All others are imitations, but imitations in name only, as the goods commonly labeled and sold as potted or deviled ham, made as they are from the odds and ends of the packing house, are no more like *Underwood's Original Ham* than chalk is like cheese.

Our Book contains a lot of unique and practical receipts. We will send it FREE.
